

ENVIRONMENTAL POLICY STATEMENT

This policy applies to all APCOA UK sites and activities within the UK.

APCOA is the market leader in Full Service Management of car parks and parking enforcement operations in the UK. We pride ourselves on a dynamic and innovative approach to all our business challenges.

APCOA recognises that its activities have an effect on the environment in a number of ways. These include:

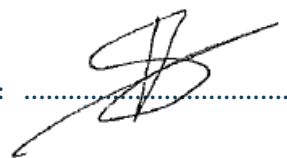

- Use of natural resources and the consumption of energy.
- Generation of waste products.
- The potential to contribute toward pollution in terms of noise pollution, air pollution and pollution of land and water.

We are committed to being the industry leader in minimising the impact of our business activities on the environment. We will achieve our environmental aims through:

- Meeting or exceeding all relevant environmental legislation and any other applicable requirements to which we subscribe.
- Identification of key environmental risks and having arrangements in place to respond to any foreseeable emergency.

- Prevention of pollution, reduction of waste and minimising consumption of resources (materials, fuel and energy)
- Evaluation our operations to ensure they are as efficient as possible in order to reduce the use of resources and to minimise waste generation.
- Careful selection and employment of our fleet vehicles in order to minimise toxic and greenhouse emissions.
- Procurement, as far as practicable, of equipment and consumables from sustainable sources and to actively promote this strategy amongst our suppliers and contractors.
- Actively promote reuse, recovery and recycling both within the business and amongst our customers and suppliers.
- Encourage all APCOA personnel at every level to contribute toward our environmental goals and promote awareness to this end.
- Monitor our performance and strive for continual improvement through setting realistic targets and objectives.
- Produce an annual progress report detailing our progress to employees and stakeholders.

Every employee has an individual responsibility to help meet the requirements of this policy. Therefore all colleagues are invited to contribute ideas or suggestions to improve our environmental policy and practice. This can be done through Team Talks, your line manager, other senior manager or directly to me.

Signed: 

Kim Challis
Regional Managing Director
UK & IRE
